Long Night of ARTS & INNOVATION

Greetings, and thank you for joining us at the 2019 Long Night of Arts & Innovation!

The Long Night of Arts & Innovation showcases Inland Southern California's exceptional talent in the arts, science and technology. First held in 2012, and again in 2013 & 2015, the event was an overwhelming success. The Long Night is back, with the best of everything that 12,500 participants enjoyed last event... and more.

This evening, Downtown Riverside is alive with the arts and sciences! You will experience exhibits n which the science is so beautiful that it feels like art, and others in which the art is so technical it feels like science. You will hear music that will make your heart soar and see demonstrations of technology that will challenge and amaze you! For those of you with children, we have the Curious Kids Zone and a number of competitions and interactive exhibits especially designed, just for them.

In addition to the arts and sciences, you will find downtown's unique shops and restaurants with a broad variety of meals and treats and a number of affordable options for families. Hundreds of volunteers are giving their time this evening, and are stationed throughout Downtown to help you navigate the evening.

This program is your guide to the discoveries and delights that are the Long Night of Arts & Innovation. On the next pages is an explanation of ways to use the program, so you may explore those discoveries and delights in your own particular style.

Finally, please take a moment to review the list of sponsors in this program. Sponsors from the city, business, education, and non-profit communities, collaborating with the Long Night of Arts & Innovation Steering Committee, embraced a great idea and have brought this remarkable event to life. When you visit their exhibits, say a quick "thank you" for their generosity and creativity in bringing us the wonders of this Long Night!

RIVERSIDE PRIDE!

Rusty Bailey Mayor

# 2019 Long Night of Arts& Innovation Program Schedule

#### Ways to Explore the Long Night of Arts & Innovation

There is so much to see, hear, and experience! Students or alumni might want to visit a favorite professor who is a presenter; some guests will have limited time to attend the event and will need to know what is available in that time frame; and others may be looking for the exhibits, performances, or demonstration in particular venues. Optimize your Long Night of Arts & Innovation experiences by choosing the search method that works best for you. Please note that all presentations are located on Main Street, between City Hall and 5th Street with the exception of the RCC Coil School of the Arts Concert Hall. Most presenters are outside on the street but others can be found in several indoor venues along Main Street such as the UCR Culver Center.

	•	Main S	tage	
NAME	INSTITUTION	PRESENTATION TITLE	DESCRIPTION	Time
MaryEllen Gruendyke/William Brakemyer	Riverside Raincross Master Chorale	Choral Performance	The Riverside Raincross Master Chorale will perform 3-5 select pieces from our repertoire. The organization also provides scholarships to local high school and college students who are pursuing a degree in performance.	
Dr. Avis Attaway	Life Source Training Institute & Affordable Counseling			10:15PM
Aaron Seitz	University of California, Riverside	Promise of Brain Training Games	This presentation will briefly discuss the mission of the UCR Brain Game Center and touch on a variety of the ongoing innovative research conducted at the center.	5:15PM
La Sierra University Music Department	La Sierra University	The Sounds of La Sierra	Two performance blocks: One featuring student choral ensembles and one featuring our string ensembles of the music department.	7:15PM
Judy Nguyen	Konica Minolta Business Solutions	Virtual Reality as a Tool for Social Justice	Immerse students in social justice issues using Virtual Reality. This presentation will discuss strategies and benefits of implementing Virtual Reality in your classroom as well as demonstrate how VR can be used to increase student awareness of current social justice issues and how students can create their own virtual tours using Google's Tour Creator.	8:00PM

#### Main Stage Continued

NAME	INSTITUTION	PRESENTATION TITLE	DESCRIPTION	Time
Judy Nguyen	Konica Minolta	Free & Simple Ways to Introduce Augmented Reality to Students	Have you been interested in incorporating Augmented Reality into your classes, but aren't sure where to start? In this presentation, we will explore free and easy-to-use tools to introduce Augmented Reality to your students.	
Melinda Fogle	San Bernardino Valley College	SBVC Theatre Arts	We will be presenting scenes from our upcoming performance of The Miser, a comedy by Moliere. We will also be presenting some comedic improv scenes.	9:00PM
Shrina Kurani	Republic	How to Make Your Money Work for You	A interactive presentation that explores the basics of financial literacy while also highlighting ways to invest in your own community.	9:30PM

FREE TO THE PUBLIC LongNightRiverside.com The Fifth Long Night of Arts & Innovation October 10, 2019 • 5PM - 11 PM Downtown Riverside, Galifornia

#### Attention Travelers of the Long Night of Arts & Innovation

Pick up your passport at the information booth @ the intersection of Main St. & University Ave. or in the Curious Kids Zone.

This is of course for bragging rights!

#### Main St. between 10th & 9th

		Ivialit St. Detwee		
Enoch Hwang	La Sierra University	Robotics for Fun	An interactive display of student robotics projects with demonstrations. La Sierra Computer Science Department	5PM - 11PM
Terrill Thomas	La Sierra University	Screen Poster Printing and Watercolor Coaster Painting	La Sierra University Department of Art + Design: Screen Printing and Watercolor Painting - interactive: participants can try screen printing, watercolor painting, and make vinyl stickers.	5PM - 11PM
Lloyd Trueblood	La Sierra University	The Amazing World of Biology	Hands-on display of human anatomy and current research in our La Sierra University Biology labs by award-winning students.	5PM - 11PM
Lowell Smith	La Sierra University	Crime Scene Investigation - CSI	Crime Scene Investigation. Learn how to dust for fingerprints and look for other important clues	5PM - 11PM
Lowell Smith and Erica Garcia	La Sierra University	Social Change in Society	Display and Information from our Criminal Justice Department	5PM - 11PM
Kim Knowlton	La Sierra University	Free Health Assessments	How is Your Health? Free and fast health assessments with our interactive measurement tools from the La Sierra Health and Exercise Science Department	5PM - 11PM
Elvis Geneston and Gary Case	La Sierra University	Why Study Physics?	Physics and Health Care: how physics professors and 3-D printing can help heart surgeons. La Sierra Department of Physics	5PM - 11PM
Leslie Martin and Paul Mallery	La Sierra University	Studying the Brain	How the Brain Works: Interactive display by the La Sierra University Department of Psychology and Neuroscience	5PM - 11PM
Carlos Parra	La Sierra University	Why Study Languages?	Be a Citizen of the World. Understand your world through the study of language and culture. La Sierra World Languages Department	5PM - 11PM
Marvin Payne	La Sierra University	Using Chemistry	Hands-on Chemistry. Testing for DNA. La Sierra University Chemistry and Biochemistry Department	5PM - 11PM
Ken Crane and Andrew Howe	La Sierra University	Remembering Our Stories	Remembering Our Stories: Department of History, Politics, and Sociology	5PM - 11PM
Melissa Brotton	La Sierra University	Found Poetry	Interactive - creating poetry from many sources. La Sierra Dept of English.	5PM - 11PM

	Main St. between 10th & 9th				
Deborah Higgens	La Sierra University	Medieval Times	Hands-on display of Medieval artifacts. La Sierra Dept of English Literature	5PM - 11PM	
Jill Rasmussen	La Sierra University	Making Stress Balls	Relieve You're Stress! Interactive: Make a stress ball, La Sierra Department of Social Work	5PM - 11PM	
John Razzouk	La Sierra University	Become an Entrepreneur	Study Business at La Sierra University	5PM - 11PM	
John Razzouk	La Sierra University	TEDx at La Sierra	TEDx at La Sierra: see clips and photos from our previous events and hear about our upcoming TEDx	5PM - 11PM	
Wayne Dunbar	La Sierra University	Enrollment Materials from La Sierra University	Hands-on Experience for kids and families. La Sierra Center for Near-East Archeology	5PM - 11PM	
Doug Clark	La Sierra University	Hands-On Archeology Experience for Kids and Families	We will provide a screen and show student written and directed short films	5PM - 11PM	
Rodney Vance	La Sierra University	Student-Produced Short Films	La Sierra University Enrollment Materials	5PM - 11PM	
Scott Brosious	City of Riverside	RiversideTV	City of Riverside's live production TV truck withgreen screen and live broadcast camera demo	5PM - 11PM	
Brittney Stoneburg	Western Science Center	Max's Mobile Museum	Showcasing 3D printed fossils from the Inland Empire through Max's Mobile Museum, a paleontology exhibit on wheels!	5PM - 11PM	
Western Municipal Water District	Western Municipal Water District	Innovations in Water	Come take a virtual tour of the waterway system in California and learn how Western uses innovate methods to deliver the highest quality water to the region.	5PM - 11PM	
Academy of Visual and Performing Arts	La Sierra University	Explore the World of Music - for Children	Display of musical instruments for children, for them to handle and play, and also have a short 10- minute lesson with an AVPA music instructor. Raffles and drawings for prizes.	5PM - 11PM	

Main St. between 10th & 9th				
Dr. Avis Attaway	Life Source Training Institute & Affordable Counseling	Life Source Training Institute and Affordable Counseling	We are a non-profit mental health center in Riverside and we will be providing basic self-care tips for students, demonstrating breathing techniques and sharing information on mental health care.	5PM - 11PM
Enoch Hwang	La Sierra University	Robotics and Coding using the Arduino	The Arduino is a popular microcontroller for learning coding and robotics. It is extremely simple to use, yet flexible and powerful enough for advanced real-world applications. Participants will learn robotics, coding, AI, and logic skills through fun, hands-on robot-building activities.	5PM - 9PM

#### Contest

Turn in contest Sheets!!! @ the information booth or at the Curious Kids area

#### VOTE

Vote for your favorite local student artist! @ Art Tent on Main St. and 6th.

Main St. between 9th and University				
Peggy Mauk	UCR	Agricultural Experiment Station and Citrus Research Center	The multi facets of the Research Center	5PM - 10PM
Taylor Cole or Cat Altmann	Burble Creativity	Take Back Creativity and Imagination a Storytelling Revolution	Creativity is being hampered by current technology. Our solution is AvA, the immersive story tent, which adds lights and sounds to stories while taking out the details, allowing YOU to fill in the gaps, visualize, and engage your creativity.	5PM - 10PM
Elizabeth Young Fillhart	IRC (International Relations Council of Riverside)	Journey to Our Sister Cities	Visitors will experience key sights and learn the history and current activities and "picture" themselves" at Riverside's nine Sister Cities through a selfie-station self-guided walk and interactive kiosks	5PM - 11PM
Civil Rights Institute	Civil Rights Institute	The Civil RIghts Institute of Inland SOuthern California	We will be having an interactive civil rights history activity to inform the youth of Riverside about civil rights milestones in our country.	5PM - 11PM
Barsukov Lab	UC Riverside	Spins, Magnetism & Computers	We will demonstration experiments explaining the origin of magnetism and how it can help building next-generation computers.	5PM - 11PM
lan Bernstein	California State Parks	Educational Technology with CA State Parks	CA State Parks is proudly being represented by the Inland Empire District to highlight the many digital resources available such as augmented reality game Agents of Discovery, a scavenger game called Tag Hunts, and distance learning programs such as PORTS (Parks Online Resources for Teachers and Students) and SITC (Skype in the Classroom).	5PM - 11PM
Teresa Rosales	Riverside Public Utilities	Two "Presentations"	Smart Meter Program, and Mini Power Grid set up.	5PM - 11PM
UCR Health	UCR Health	Science and Health.	Scienced based hands on fun.	5PM - 11PM
Fair Housing Council	Fair Housing Council of Riverside County	Fair Housing Council Riverside County	We will have an interactive activity and a diversity coloring exercise.	5PM - 11PM
Prue Talbot	UCR	Tobacco Related Disease	We will sponsor a table dealing with tobacco related disease. This will include information on new tobacco products such as JUUL electronic cigarettes, and handouts with information on tobacco and nicotine.	5PM - 11PM

#### Main St. between 9th and University

	<u>Mail of Settleen still and Oniversity</u>					
Abhijit Ghosh	University of California, Riverside	Earthquake country	Booth with info on earthquakes	5PM - 11PM		
Rachel Behar	UCR	UCR Stem Cell Center and Core Facility	To educate the Inland Empire community on stem cell research being conducted at UCR and other local campuses.	5PM - 11PM		
Martin Sanchez & Dawn Adams	Tio's Tacos and A Nature of Things	Arts & Innovation Alive!	Martin Sanchez, owner of Tio's Tacos and Dawn Adams, owner of A Nature of Things, are artists at heart. This collaboration of their artwork will bring music to your eyes. This will be a sculpture of up- cycled materials and flowers. A great place for pictures and a great collaboration of arts & innovation.	5PM - 11PM		
Guadalupe Ruiz	University of California, Riverside	Yes, enough for a couple of laptops (3 outlets)	Showcasing student organization projects during the tabling portion.	5PM - 11PM		
Luz Negron	Riverside Museum Associates Multicultural Council	Spices from Around the World	We as Riverside Multicultural Council will be presenting sample of different spices from around the world and its uses from arts, cooking and innovations. Also we will display an interactive Global Map which participants can trace their native lands where their families came from.	5PM - 11PM		
Aaron Seitz	University of California, Riverside	Promise of Brain Training Games	This booth will briefly discuss the mission of the UCR Brain Game Center and touch on a variety of the ongoing innovative research conducted at the center and at UCR.	5PM - 11PM		
Dr. David Carter		A Scanning Electron Microscope That Needs No Sample Preparation And Can Be Used By Anyone	The miniature TM-1000 was the first user-friendly, sample-friendly SEM on the market, and is a great STEM outreach system. It its small enough, and tough enough to stuff in the back of an SUV, and deploy in a classroom in 15 minutes. See what pollen the wild bee ate for lunch, and beware the silica saw-teeth on your meanest blades of grass. Preserve a tiny insect in (any) alcohol and take a look at its three-dimensional structure. Play "Guess The Object' and take home a thermal print souvenir of your own micrograph.	5PM - 11PM		
Riverside Police Department	Riverside Police Department	RPD	Showing the police departments tools that they use everyday.	5PM - 11PM		
UCR Extension		UCR x Obo Art	We will give participants the opportunity to make paintings using small programmable robots called sphero's. Attendees will be able to use an ipad to program the robot to move around butcher paper to create paintings.	5PM - 11PM		

	Main St. between 9th and University				
UCR Health	UCR	Bring Back the Dead	Hands-Only CPR or No Respectable Zombie Would Eat a Dead Gu	5PM - 11PM	
Teresa Cofield	UCR	Do you want to become a physician? Learn about UCR School of Medicine Pipeline Programs	Learn about programs and activities available for K - 12 and college students	5PM - 11PM	
Sarah Simpson	UCR	Sensing the Universe	Five interactive demonstrations using the fives senses to explore the universe and what its made of. Touch a meteorite, taste the center of the Milky Way, hear a quasar, and more!	5PM - 11PM	
SolarMax	SolarMax	Sun's technology	Using the Sun for all things.	5PM - 11PM	
		RCC Coil Co	ncert Hall		
Peter Curtis	Riverside City College	Riverside City College Guitar Ensemble	The Riverside City College Guitar Ensemble will perform. It is a multi-guitar ensemble that performs a wide variety of music written or transcribed for guitars.	5:30PM	
RCC Concert Choir	Riverside Community College	Riverside City College Concert Choir	The choir will perform select choral pieces spanning centuries of music and various styles.	6PM	
John Byun	RCC	Riverside City College Chamber Singers	Choral Performance.	6PM	
Dr. Angela Brand	California Baptist University	Musical Perfromance	String and percussion dance music	6:45PM	
Kevin Mayse	RCC	Wind Ensemble	Performance of music for Winds and Percussion	7:15PM	
James Rocillo	Riverside City College	RCC Concert Band	RCC Concert band will perform a short 15min concert of windband literature.	7:15PM	
Charlie Richard	Riverside City College	Concert	Concert performance of modern jazz ensemble music	8:30PM	
James Rocillo	Riverside City College	RCC Jazz Ensamble	RCC Jazz Ensamble will perform a short 15min concert.	8:30PM	

	Main St. between University & Mission Inn				
Josh Curtis	J3K Dance Company	J3K Dance Company	J3K Dance Company is a team filled with talented kids and a passion for all things dance! Sharing this love for dance is something every single member of this team strives to do.	5:45PM	
Mark Roberson	California Baptist University			5PM - 10PM	
Lisa pierce	City of Riverside	Innovative GIS at the City of Riverside	The IT Innovation Team has been working on a variety of innovative projects including supporting Homeless Response for the Mayor's Initiative; supporting Animal rescue GIS4Pets in collaboration with other agencies and the County. As well as efforts with the Innovation District.	5PM - 11PM	
Olivia Sanchez	City of Riverside	Greening our City	A presentation looking at different ways keep our City green and sustainable. There will be a sorting game, examples of waste reduction efforts, technology driven solutions for waste reduction/recycling/food rescue. We intend to have attendees participate in small activities.	5PM - 11PM	
Gordon Bourns	Bourns, Inc.	Bourns, Inc.	Describe products and technology of Bourns	5PM - 11PM	
Gordon Bourns	Science Technology Education Partnership	STEM LEAPS, STEM PULL & STEP	Presentation the the STEM/STEP programs available to students in the Riverside Unified School District	5PM - 11PM	
Matthew Rickard	California Baptist University	High Speed Imaging of Exciting Physical Phenomena in Engineering	Using a high-speed camera, this live demonstration by CBU?s Gordon and Jill Bourns College of Engineering will reveal some hidden phenomena occurring in just microseconds that can only be seen with cutting edge imaging technology.	5PM - 11PM	
Matthew Rickard	California Baptist University	3D Printing Display: Cutting Edge Devices and DIY tips	3D printing is revolutionizing the manufacturing world for designers of all types, including engineers, inventors, and artists. CBU?s Gordon and Jill Bourns College of Engineering will showcase the latest technologies from DIY versions to cutting edge systems.	5PM - 11PM	
Matthew Rickard	California Baptist University	Video Game Design	Come play and learn about video game programming from students at CBU's Gordon and Jill Bourns College of Engineering. You?II have fun learning how to these students use well established gaming engines to construct a simple games.	5PM - 11PM	

	Main St. between University & Mission Inn				
Matthew Rickard	California Baptist University	Humanoid Robots	Come interact with humanoid robots programmed by students at CBU?s Gordon and Jill Bourns College of Engineering. This exhibit highlights the latest robotic technologies from 3D Printed DIY robots to high-quality systems.	5PM - 11PM	
Matthew Rickard	Globe Biomedical, LLC	Preserving vision through novel wearable eye health monitors	Globe Biomedical is a Riverside startup company aimed at commercializing technology that originates from CBU?s Bioengineering Department and provides a breakthrough in managing glaucoma, the leading cause of irreversible blindness. Smart eyeglasses use cameras to monitor eye pressure or IOP.	5PM - 11PM	
Dr.Dayna Herrera & Dr. Juliann Perdue	California Baptist University	Complimentary & Alternative Therapy to Reduce Pain & Anxiety	This will be interactive with a focus on alternative therapies used in healthcare to reduce pain & anxiety. We will focus on pet therapy with our College of Nursing trained therapy dog and a craft making essential oil bracelets.	5PM - 11PM	
Seung-Jae Kim	California Baptist University	Toy robot fingers controlled by muscle signals	In this interactive demonstration, a five-fingered robotic hand, actuated by five servomotors, will be used to demonstrate the feasibility of controlling the hand with multi-degree of freedom with signals detected from arm muscles using a deep learning algorithm (artificial neural network).	5PM - 11PM	
Daniel Clark	California Baptist University	Formula SAE Competition Vehicle	The Gordon and Jill Bourns College of Engineering at California Baptist University competes annually in the Society of Automotive Engineers Formula Collegiate Design Series. In this competition, students design, build and race a new vehicle each year. Students will explain the engineering design of the competition vehicle.	5PM - 11PM	
Gene Sherman	Vocademy	Vocademy - Skills Discovery and Training Center	Investing in vocational training and discovering the benefits of becoming a maker.	5PM - 11PM	
Jesus Castenada	City of Riverside	Arts & Cultural Affairs Presents	Jesus, a local artist will be doing a detailed and engaging chalk art image to celebrate the City and Arts & Innovation!	5PM - 11PM	
Thinh Pham The	Automation and Control Engineering	Control of the Fischertechnik robotic arm to pick object from a conveyor	Introduce a model of a robotic arm grasping objects from a conveyor by using basic blocks of Fischertechnik, the Robotic TX Automation robots, Arduino Mega as a controller, and LabVIEW for HMI design and color detection.	5PM - 11PM	
Ryan Rainbolt	Garner Holt Education through Imagination	Sparking Imagination through the art and science of Animatronics	We will highlight and exhibit the world of animatronics in education and the way they represent a seamless integration of technology, engineering and the visual and performing arts. Our presentation will focus on innovation, creativity, and engagement in STEAM learning.	5PM - 11PM

Ongoing Dance demonstrations

#### Main St. between Mission Inn & 6th

Vanessa Torres	Live Nation/Fox Riverside Theater Foundation	Live Tech - Bringing the Magic to Performing Arts	An interactive look at theater technology (audio and lights)	5PM - 11PM
Luke Hilland	Riverside Arts Academy	RAAMP Student Performance	Students from the Riverside Arts Academy Music Project will perform select instrumental pieces.	5PM - 11PM
Various	Riverside County Philharmonic	Instrument Petting Zoo	The Instrument Petting Zoo affords children the opportunity to touch, feel and play various orchestral instruments. Trained musicians will interact with the children to enhance their experience. (For elementary age children, ongoing through the evening.)	5PM - 11PM
Caryn Marsella	Riverside Art Museum	Hands on STEAM Projects	Salt is a fun experimental tool to use with Watercolor painting. Join Riverside Art Museum, as we use funs house hold items to create fun science plus art experiments.	5PM - 11PM
Live Nation Staff and Special Guests	Live Nation	Riverside Live!	Come meet staff from Fox Performing Arts Center and Riverside Municipal Auditorium, learn behind the scenes lighting and tech or see and hear previews of upcoming shows!	5PM - 11PM
Karon Myles	Naval Surface Warfare Center Corona Division	Critical Infrastructure Hack (CI Hack)	Demonstration of a Test Bed that identifies and checks for cyber security hacks on a critical infrastructure	5PM - 11PM
Loma Linda	Loma Linda University Health	Loma Linda University Information Systems	Health Interactives will be presenting an anatomy based game in VR. The game is designed to familiarize students with the human anatomy while competing against the clock and their friends.	5PM - 11PM
Loma Linda	School of Behavioral Health	Child Life Specialist Program	Children of all ages are welcome to stop by our station to create a fall-themed craft! Options include leaf and acorn tissue paper ornaments and decorative bookmarks. We hope to see you there!	5PM - 11PM
Loma Linda	Pharmacy	Loma Linda University School of Pharmacy	Come learn about the world of medication.	5PM - 11PM
Loma Linda	Loma Linda University	Loma Linda University Recruitment	Have you ever wondered what schools are in the area that you can learn so much from. Come hear about oportunities at Loma Linda University.	5PM - 11PM

Main St. between Mission Inn & 6th					
Loma Linda	Department of Earth and Biological Sciences	Reptile Exhibit	Dr. William Hayes' lab will exhibit live snakes, including rattlesnakes for show-and-tell and non- venomous snakes that can be handled (hands must be cleaned afterward). There will be a brief, exciting lecture that repeats all evening long on basic facts about rattlesnakes and safety. There will also be live spiders and glow-in-the-dark scorpions."		
Loma Linda	Loma Linda University School of Allied Health	Radiation Technology	The LLU Department of Radiation Technology will display a variety of x-ray films, tubes, and other tools used to illustrate how x-ray images are created. The technology behind medical imaging has used phosphors for a very long time to assist in the exposure of film and to capture information digitally with the use of computers. There will be a demonstration of the use of light photons to show how phosphorescence works.	5PM - 11PM	
Loma Linda	Loma Linda University School of Allied Health	Orthotics and Prosthetics	Come See some amazing ways that the health industry has benefited from 3-D printing.	5PM - 11PM	
Loma Linda	Dentistry	Loma Linda University School of Dentistry	Come and experience digital dentistry and chat with one of the faculty dentists from Loma Linda University School of Dentistry. Try your hand at scanning a typodont, a model of the mouth, or a toy with our 3D intraoral scanner. Examples of 3D printed scans will be on hand to view.	5PM - 11PM	
Tami Perez	Embry-Riddle Aeronautical University	Introductions to Aeronautics	Passers by will be able to engage with various aeronautical activities to include paper airplane, models and videos.	5PM - 11PM	
City of Riverside	City of Riverside	STEM Community Center	The newest City community center, the Youth Innovation Center. The center will be a resource for STEM, career technical development, college, and various community services for all visitors. Spreading the word that the center will be open January 2020 with free and low cost resources for them to take advantage of.	5PM - 11PM	
Jim Behrman & Cosme Cordova	Division 9 Gallery	Is it Art or Science?	Arts and robot sculptures that bring arts and science together	5PM - 11PM	

#### Curious Kids Zone Main St. between 6th & 5th

Heather Schultz	Loma Vista Middle School	Kid Zone Activity	Kids can participate in a hands on activity and learn about some of the basics of science.	5PM - 8PM
Siriana Holst		Origami	Introducing basic Eastern paper folding techniques.	5PM - 8PM
Beth Schwandt	Villegas Middle School	STOMP OUT LOUD!	Using drum buckets and ordinary objects to make unique sounds and rhythm cadences.	5PM - 8PM
Jeffrey Ribaudo	Norte Vista High School AUSD	Art for Kids	Kids can come create art to take home.	5PM - 8PM
Collette Moore	Loma Vista Middle School	Art Project	Art Project for kids zone	5PM - 8PM
Froukje Schaafsma- Smith	Alvord Unified School District	Art for Kids	Art project for kid zone	5PM - 8PM
Tracy Lech	Loma Vista Middle School Library	Raincross Decorating	Children will be able to decorate laser cut Riverside Raincrosses.	5PM - 8PM
Regina Linton	Loma Vista Middle School	Plant a seed	Come plant a seed in a dixie cup to transfer to your own personal garden.	5PM - 8PM
Alfonso Anaya	Kids That Code, Inc.	Cool Careers in Technology	An in-depth look at the different up and coming careers in technology of the future.	5PM - 8PM
Alejandro Cisneros	Alvord Unified School District	Kid Zone Activity	An engaging, interactive, and educational activity revolving around language arts and writing.	5PM - 8PM
Tawny Hendrix	Mary S. Roberts Pet Adoption Center	Cat and Dog Mask	We will be located in the Kids Zone. Participants will be able to color a dog or cat mask.	5PM - 8PM

Curious Kids Zone Main St. between 6th & 5th					
Kathleen Halsne	Loma Vista Middle School	How to Strum a Ukulele	Guests will be taught to play 2 chords and how to perform a strum patternon a Ukulele. Presenter will perform fun songs on a Ukulele.	5PM - 8PM	
Abigail Schneider	Alvord Unified School District	Story Boards	Students will use props to plan and illustrate their own stories on a story board.	5PM - 8PM	
Bethany Rivera	Loma Vista Middle School	Kids Craft-tivity	Kids and students will have the opportunity to paint their own rock and leave a message on it for someone to find.	5PM - 8PM	
Main St. between 6th & 5th					
Josh Mylnar	Brenner-Fiedler	Working and Playing with Co-Bots	Community members can compete with a collaborative robot in connect four and engage in avQ & A with an engineer at the booth.	5PM - 11PM	
Kellie Boiston PT, OCS, CPI / Jessa Tarbart	The Anahata Yoga & Belwellness Healing Arts Center	The Healing Arts	We are an integrative Healing Arts Center, offering Yoga, Pilates, Tai Chi, Mindfulness and Meditation. We will be demonstrating each of the above healing arts. We are experienced practitioners with long standing ties to Riverside.	5PM - 11PM	
Erin Snyder	Riverside-Corona Resource Conservation District	Conservation Innovation	Technology helps the community be scientists. Digital data collection platforms, smartphone apps, and other internet tools contribute to science everyday all over the world. Learn how to participate in community citizen science contributing to enviormental conservation with the Santa Ana Watershed Community Science Network.	5PM - 11PM	
Richard SIsk - North High School robotics team	North High School	North High School's FIRST Robotics competition robot	North's robotics team will demonstrate their FIRST Robotics competition robot	5PM - 11PM	
Renee Hill	Girl Scouts of San Gorgonio Council	GenCyber - Girl Scouts and CSUSB	We will have presentation materials from girls who have had the opportunity to attend GenCyber due to the council efforts to reach a broader audience of girls. [Note: we request to be located in front of Women In Tandem]	5PM - 11PM	
Ana Lee	Women In Tandem	Women in Science	Women In Tandem will host a presentation of women with Riverside roots to discuss their contributions to the field of science. WIT will provide a reception area for the female - centered booths stationed outside our storefront.	5PM - 11PM	

#### Main St. between 6th & 5th

Shirley Coates	Society of Extraordinary Women, Inc.	Women at work	Women showing what they can do. Come see us in action.	5PM - 11PM
Luke Jackson	Mind & Mill	Toil Gallery	Presenting information on the gallery space at Mind & Mill including upcoming shows and opportunities as well as information on Riverside Artswalk by the Riverside Arts Council	5PM - 11PM
Jacqueline Kelley	IEEE Women in Engineering at CSUSB	Women in Engineering	Showing off the engineers of today and tomorrow. Women engineers doing the work.	5PM - 11PM
Douglas Long	Museum of Riverside	Prototyping Museum Interactives	Kids can come test some of the concepts, content, and exhibit prototypes to better develop new exhibits in the Museum of Riverside.	5PM - 8PM
Jorge Rocha	Riverside Public Library	Library STEAM Presentaion	We would like to do a STEAM presentation showcasing the programming events we do at the library and a story time session.	5PM - 8PM
UCR Child Studies	University of California, Riverside	To be determined	Free children's craft/activity themed to Long Night of Arts & Innovation; will share information regarding paid research opportunities (with UCR Child Studies) for local families who have children from the age of birth to 17.	5PM - 8PM
Maria Dulaney	Alvord Unified School District	Making flowers from paper napkins	cutting with scissors forming the petals, using glue to glue to the stick and covering with floral tape etc.	5PM - 8PM
Michelle Survillas Amy Kidd	Ysmael Villegas Middle School	Marshmallow Constellations	Children will create star marshmallow constellations using the star constellation guides. Children will memorize the name and shape of each constellation so that next time they are star-gazing, they can impress their friends and family with star knowledge.	5PM - 8PM
UCR ARTS Center				
UCR ARTS	UCR		Chris Jordan: Intolerable Beauty: Ongoing exhibition tours/Musical Instrument Workshops/ Dance and Theater Performances/ Reflection Eternal	5PM - 10PM
